## Cancer voluntary coverage pays cash benefits when you may need it most

With our cancer plan, you'll receive benefits that follow a positive diagnosis of an internal cancer during the term of your coverage. You and your loved ones can rest a little easier knowing you have protection in place to help avoid depleting your bank accounts or taking on additional debt to cover day-to-day living expenses.

## Why do I need cancer coverage?

Cancer plans can assist you with a variety of expenses so you can focus on getting better. You can spend the benefits however you want, on direct or indirect costs associated with the illness:

- Make your mortgage payments
- Hire extra help for around the house, such as in-home caregivers
- Help cover medical bills as well as therapy and training
- Pay for travel to treatment facilities away from home - and for family visits

In addition to the physical and emotional effects, people who are diagnosed with cancer may see a costly impact on their expenses. You may need additional help to absorb the expense of paying for drugs and other direct and indirect costs associated with cancer.

## Here's how it works

Benefit payments are made directly to you in most cases, placing you in control at a time when you may feel that your options are limited. The base benefit is available to you upon your initial cancer diagnosis, so it's there when you need it most. You'll save on your premiums because coverage through your employer typically is less expensive than purchasing on your own. And you can pay premiums through automatic payroll deduction. You can continue the coverage even if you change employers.

## Act now

You've probably taken some steps to protect your assets and future financial stability with a health plan, life insurance, savings, etc. Take an additional step to round out your coverage and help you and your loved ones financially in the event of an unexpected cancer occurrence.

**U.S. men have slightly less than a 1 in 2 risk of developing cancer; for women, the risk is a little more than 1 in 3.**

## **Waiver of Premium Benefit**

We will waive the premiums for the Certificate and in force riders starting on the first premium due date following a 60 day period of Total Disability of the Named Insured due to Cancer. If 60 days or less separate two periods of Total Disability for the same Cancer, the second will be a continuation of the first. The Named Insured must: (1) be receiving treatment for such Cancer for which benefits are payable under the Certificate; and (2) remains disabled for 60 consecutive days. We will waive premiums for as long as the Named Insured remains Totally Disabled. Premiums will be waived in accordance with the mode of payment in effect when treatment began. If the Named Insured is retired or age 65 and over at the time he or she becomes Totally Disabled, the definition of Total Disability will mean the inability to perform two (2) or more Activities of Daily Living (ADLs) without the assistance of another person. We may ask for and use an independent consultant to determine whether the Named Insured can perform an ADL when this benefit is in force.
